# SPECIMEN LABEL

**NONIONIC SURFACTANT • DRIFT REDUCTION AGENT PENETRANT • DEPOSITION AID** 

# **Principal Functioning Agents**

TOTAL...100%

Contains Petroleum Distillates

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180.

WA REG NO. 994680-25001

# WARNING

# KEEP OUT OF REACH OF CHILDREN READ ENTIRE LABEL BEFORE USING

#### **Hazard Statements**

Causes serious eve irritation

**Precautionary Statements**Avoid breathing dust, fume, gas, mist, vapors and spray. Wash hands thoroughly after handling. Wear protective gloves/clothing and eye/face protection.

### First Aid

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious

Note To Physician: Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

If in Eyes: Irrigate copiously with clean fresh water for at least 10 minutes, holding the eyelids apart and seek medical attention. Remove contact lenses if present and easy to do: continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Obtain immediate medical attention. Keep at rest. Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Remove to fresh air, keep patient warm and at rest in a position comfortable to breathing. If breathing is irregular or stopped, give artificial respiration and call 911 or an ambulance. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Wash skin thoroughly with soap and water or use a recognized skin cleanser. Do NOT use solvents or thinners. Remove contaminated clothing and wash before reuse. If skin irritation occurs, get medical attention.

# **Emergency Phone Numbers**

Have the product container with you when calling a poison control center or doctor, or going for treatment. POISON CONTROL CENTER: (800) 222-1222 FOR SPILL CALL CHEMTREC: (800) 424-9300

Do Not Allow Product to Freeze! **NOT FOR AQUATIC USE** 

#### General Information

RELIC is a proprietary tank mix adjuvant featuring a drift and deposition enhancing agent intended for use with a range of crop protection tank mix partners.

RELIC maximizes spray application performance by improving coverage, reducing spray droplet bounce, and providing enhanced retention and infiltration on the targeted leaf surface RELIC suppresses off-target drift by providing a more uniform pattern and velocity of the spray droplets

RELIC can be used with air assist and conventional spray nozzles for applications including but not limited to herbicides, desiccants, insecticides, fungicides, and plantgrowth regulators.

Many factors affect off-target drift such as spray boom height, nozzle configuration, spray pressure, temperature, wind, and thermal inversion.

RELIC will not eliminate all drift.

# Storage and Disposal

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: DO NOT FREEZE! Keep this container tightly closed. Store above 25° F. Store in original container. Store in a closed container. Store in a dry place. Store in a wellventilated space. Keep cool

Product Disposal: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents in accordance with local and national regulations.

Container Disposal: Do not contaminate water sources by cleaning of equipment or disposal of wastewaters. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC  $recycler\ visit\ www.agrecycling.org.\ Decontaminated\ containers$ may also be disposed of in a sanitary landfill. Dispose of containers in accordance with local and national regulations

# **Directions For Use**

Always read and follow label instructions of accompanying pesticide product. The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances which may increase the activity of spray solutions. Care should be exercised when using on new varieties or crops not previously treated with RELIC.

Recommended Rate For Herbicides\*: 2 to 3 ounces per acre in 5 to 25 gallons per acre spray rate.

Recommended Rate For Fungicides & Insecticides\*: 2 ounces per acre in 5 to 25 gallons per acre spray rate.

\*Do not exceed 2 quarts of RELIC per 100 gallons.

Direct Injection Rates For Herbicides: 2 to 3 ounces per acre in 5 to 25 gallons per acre spray rate.

Direct Injection Rates For Fungicides & Insecticides: 2 ounces per acre in 5 to 25 gallons per acre spray rate.

### For Direct Injection

RELIC can be applied through injection systems when added to one of the system's chemical injection tanks. An in-line mixing chamber is recommended.

- First, add RELIC to the chemical injection tank:
- · Second, pump the correct amount of RELIC into the line;
- Third, pump the proper amount of water, pesticide, fertilizer and other adjuvants into the line, for mixing with RELIC and chemicals, before going into the spray boom.

# **Mixing Instructions**

Add RELIC after pesticides or other adjuvants are introduced to spray mixture but prior to completing the filling of the spray tank. Before making large scale applications, conduct a jar test containing all ingredients to confirm compatibility.

Conditions Of Sale If the stated terms herein are not acceptable, immediately return the product, unopened. Seller warrants that this product meets specifications at the time of manufacture. To the extent consistent with applicable law, no other warranty, whether express or implied, including without limitation the warranties of merchantability and fitness for a particular purpose, and all such other warranties are hereby expressly disclaimed by seller. All technical advice rendered is intended for use by persons having the appropriate certification, education, experience, and skill, and to the extent consistent with applicable law. Seller shall not be liable for any use or nonuse of such advice. Factors, including but not limited to timing, mixture, application method, weather and other conditions are beyond Seller's control and ability to eliminate risks in use. Risks include damage from direct application to plants or caused by spray droplet or vapor drift to other plants. To the extent consistent with applicable law, Buyer assumes all risk and liability for all loss, damage or injury to person or property, including without limitation pollution, environmental damage and restoration or remediation liability, resulting from the use of said product, whether used singly or in combination with other substances, or the storage handling and disposal of the product. Except to the extent prohibited by applicable law, the exclusive remedy of the user and the limit of liability of Seller for any loss, personal injury or damage resulting from the use of this product, shall be the purchase price paid by the user for the quantity of product involved. To the extent consistent with applicable law Seller shall not be liable to the buyer for any damages arising out of product use, including without limitation goodwill, profits, manufacturing cost, or business interruption. regardless of the form or basis of buyer's cause of action.
